

Thursday 28th January 2021

Maths

L.O – To be able to say how many more.

Today you will watch the video PowerPoint.

Please pause the video at times to allow you to give your child extra support and repetition if necessary.

The Chilli Challenges are at the end. You will need counters and stickers if you have them in two different shapes and two different colours. You could use pasta in two different shapes (e.g twists/shells) or you could draw the shapes or stamp them if you have stamps. Just use what you have at home. To record you can either print the 10 frames on the following page or draw your own on paper or in their book. Please photograph or video how well they do if you can to upload to Tapestry. Thank you x
