L.O – To find the difference

Join in with the video

<https://youtu.be/2jXFzTVscM0>

I have 6 pencils in my pot.

What can you find that has **fewer** items in a pot? Draw a picture below.

What can you find that has **more** items in a pot? Draw a picture below.

Here is an empty pot, can you fill it with more pencils than I have?

How many more do you have? How can you check? (line them up to compare)

Can they use the language more/fewer to compare groups? Can they line up the objects to find the difference? Can they say how many more/fewer in the groups?

Reflect

Mastery

Unit 8: Comparing numbers within 10, Week 4: Comparing groups up to 10

Draw more flowers.

I think there is more than one way to do this!

Ask

Strengthen: How many flowers are there? Can you think of a number more than 5? Can you check by using counters?

Deepen: Is there more than one possible answer? Is your answer the same as your partner's? Can you make the flowers different shapes and sizes? How many more flowers have you drawn?
