

Maths – Counting in sets 20th April 2020

This week we are counting in sets, start by practicing counting in 10's. You could use a 100 square to help you. Here is a link to the Splat Square

<https://www.primarygames.co.uk/pg2/splat/splatsq100.html> or there are 100 squares on Education City. Do you notice the pattern?

Make groups of 10 practically, you could use teddies, cars or lego (anything you have lots of). Can you write a number sentence for these groups?

$$10 + 10 = 20$$

$$10 + 10 + 10 = ?$$
