L.O – To make Spring flowers using egg boxes, paper or card.

Make either a single flower or maybe even a bunch of beautiful Spring flowers to brighten up the living room.

We'll leave it up to you how you want to make your flowers but here are some ideas to get you started.

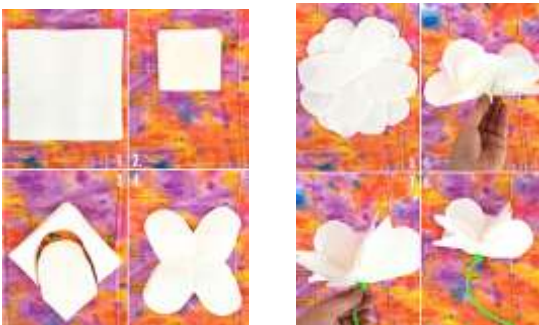

Bend pipe cleaners to form petals and a stem.

Cut up an egg box and paint pretty colours. Glue beads to the centre.

Drip watercolours onto kitchen paper cut into the shape of petals and tie with a pipe cleaner.

Lay sheets of tissue paper on top of each other. Gather together in the middle and feed into the top of a straw.
