

Music – Friday 26th February 2021

Today you will create your own musical notation. You can then use it for body percussion eg. clapping, clicking, stomping.

You will need a piece of A4 paper, scissors and a pen or pencil.

1. Fold the piece of paper into eight sections.

2. Cut along the folds. You should now have 8 smaller pieces of paper.
3. On some of the pieces, write symbols to represent different movements. For example, a circle could mean a stomp; a plain piece of paper is a pause. These 8 pieces of paper are now your **notation cards**.

stomp pause

4. Arrange your notation cards and have a go creating your sequence using body percussion.

stomp stomp pause clap pause clap click click

5. Shuffle your cards to randomly select a new sequence.
6. At home or at school, you could swap cards with someone and have a go using cards or create sequences for each other.
7. **Challenge:** Change the colours or sizes of the symbols to experiment with volume and pitch.
