## Phonics

L.O - To learn to read the words 'into' and 'saw'.

Cool Blue makes  
the long oo sound  
in into.

Tricky Witch  
changes the aw  
grapheme in saw.

Make a colourful flashcard for each word to add to your collection. You could use collage to make the coloured letters, paint or felt tip pens.

Choose another activity from the selection below.

- Make the words using playdough sausages. Trace over the words saying the letters in turn and finally the whole word. Can you write the words?
- Write the words to learn (up to 5) in a row at the top of table on a piece of paper or whiteboard. Look through your books and write each word down under the same word. Count up how many of each word you find.
- Make the words using magnetic letters and check against the flashcard.
- Write the words in sand, shaving foam, seeds, rice, glitter, soil etc

Now play Bingo with your grown-up. Use your own flashcards in a pile face down or cut out the words below. Take turns to choose a word and place a counter on your board if you have the word. The winner is the first to fill their board and shout **Bingo!**

into	saw	was	the
said	all	and	going
come	play	you	went

into	play	and
