

Friday 25th February

Maths

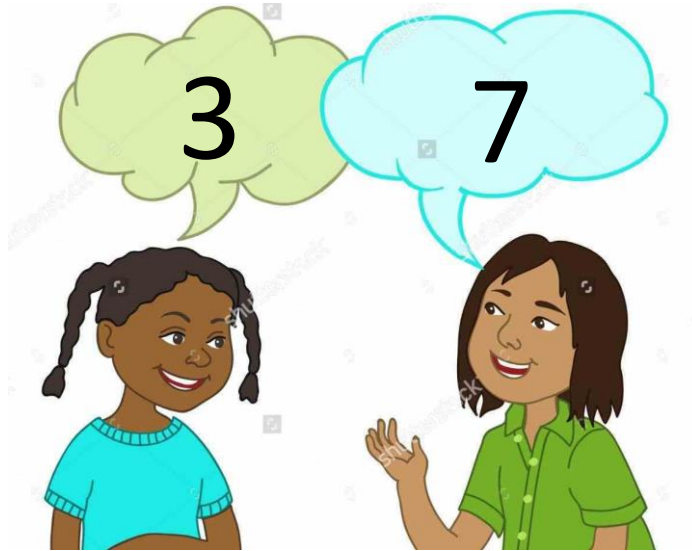

L.o- To explore all the different number bonds to 10 to consolidate understanding

Get active!

The focus of these activities is to encourage your child to recall the number bonds to 10 rather than having to count.

Activity 1- Number bond matching

Take it in turns to call out a number from 0 to 10. The other player responds with the number bond to 10.

Activity 2- Ten!

Use the digit cards from yesterday's session. If you don't have these, you will need numbers 0-10 on pieces of paper or card.

Pairs:

1. Turn all the number cards face down.
2. Take it in turns to turn over 2 number cards.
3. If the pair of number cards add up to make 10, any player can shout "10" to win the pair of cards.
