Counting in 2's 5's and 10's

Use your skills of counting in 2's 5's and 10's to answer these questions. You could use objects to help you. [Counting song](#)

Mild

Daisy and Akram were making number patterns. Daisy was using beads that looked like flowers and Akram was using cube bricks. First they were counting in twos and their patterns looked like this:

Can you count along them in twos to see who made the longer one?

Spicy

Always, sometimes, never...

When you count in tens, your units digit will always be 0

Prove it!

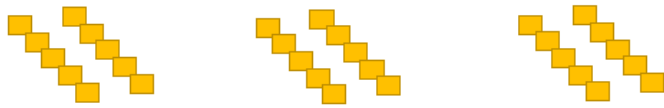

Name _____

1.3.21

Counting in 2's 5's and 10's

Miss Charlton is making this pattern with counters.

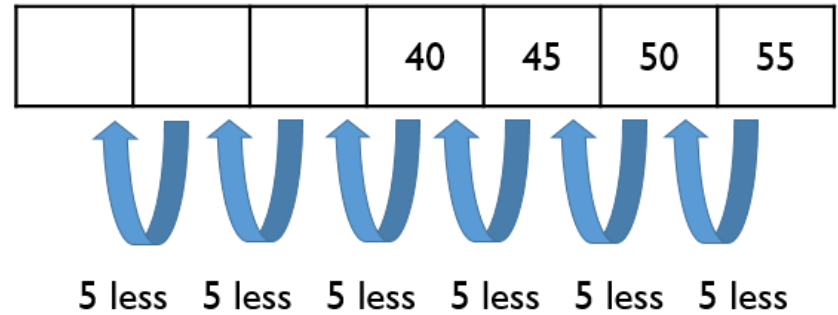

How many groups are there? How many counters are in each group?

If you make 6 groups, you will use 60 counters.

Do you agree?
Explain your answer.

Count in 5s backwards to complete the number track.

If you continue counting, will you say the number 25?
