

# Wednesday 3<sup>RD</sup> March

## Understanding the World

After discovering the eggs laid in our nest on Monday morning, we set up a camera in the classroom to see if whatever laid them came back.

To our amazement, last night we captured something we have never seen before!

It would appear that it was a dinosaur that laid them! We have reported it to Mrs Theobald and she'd like you to find out more about the dinosaur that laid them.

Watch the 2 videos below to find out about 2 different dinosaurs.

<https://www.bbc.co.uk/iplayer/episode/b03xpsj4/andys-dinosaur-adventures-14-brachiosaurus-and-monkey-puzzle>

<https://www.bbc.co.uk/iplayer/episode/b03zk01q/andys-dinosaur-adventures-16-stegosaurus-and-painting>

Which one laid the eggs? How do you know?

Discuss what you have found out about our dinosaur visitor with your grown up.
