

Literacy

Today it is St George's Day.

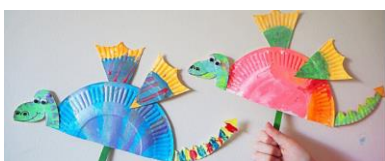

There is a story called Saint George and the Dragon linked to this day. Open the story, saved on the home learning page for today. Before reading the text, look at the pictures. Think about what you can see and what might be happening and why.

Once you have done this, go through it again, this time reading the text. At the end spend time talking about the characters, their feelings at different points in the story.

Can you retell the story to another member of the family?

Some activities you may like to do today linked to St Georges Day are:

1. Design a shield for Saint George, you could draw this or make one out of recycled card.
2. Make a dragon- there are some suggestions below

3. Make puppets of the characters and act out the story
4. Make a St George's flag
