Doubles Machine

Today we are going to use the doubles machines we made yesterday to solve doubles problems.

Watch the following video to see how we are going to use it to solve some problems.

<https://www.youtube.com/watch?v=Mh0RNk-YDt0&feature=youtu.be>

Once you have watched the video clip, find the doubles of the numbers on your number cards. Can you tell someone at home some doubles?

We would like you to take a photograph or video of you using your doubles machine and send it to the class email address.
