

Money bags!

6.5.20

Put a selection of coins in a bag (use the table below to challenge yourself, start with **Bronze** and work your way up). Then close your eyes and pick out 2 coins and add them together. How much money do you have in your hand? Do this at least 5 times to see how many different totals you can get. You could keep score against a member of your family and see who has the most money each time.

Bronze	coins up to 10p
Silver	coins up to 50p
Gold	All coins

Mrs Gregory picks out:

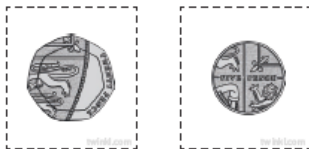

$$10p + 2p = 12p$$

Miss Charlton picks out:

$$50p + 1p = 51p$$

Miss Higgins picks out:

$$20p + 5p = 25p$$

Who has the most money?
