

## Money Line up

This is a 2 player game, you will need:

- ten 1p coins, five 2p coins, two 5p coins
- a copy of the grid below (you could ask a grown up to help you draw this out in your Maths book)

How to play:

1. decide who will go first
2. players take turns to put one coin in a square at a time, you can use any square on the grid
3. the winner is the first to make a row of coins to total 10p

How many different ways can you make 10p?
