

We are learning about equivalent fractions

(Equivalent fractions are fractions that are worth the same amount of the whole thing)

Use this table to complete the statements

1 whole							
$\frac{1}{2}$				$\frac{1}{2}$			
$\frac{1}{4}$		$\frac{1}{4}$		$\frac{1}{4}$		$\frac{1}{4}$	
$\frac{1}{8}$	$\frac{1}{8}$	$\frac{1}{8}$	$\frac{1}{8}$	$\frac{1}{8}$	$\frac{1}{8}$	$\frac{1}{8}$	$\frac{1}{8}$

Fill in the missing words for each statement

One half is the same as _____ quarters.

One quarter is the same as _____ eighths.

Four eighths is the same as _____ quarters.

Eight eighths is the same as one _____.

Four quarters is the same as one _____.

Write true or false next to each of these statements.

$\frac{1}{4} = \frac{1}{8}$ _____

$\frac{3}{4} > \frac{1}{2}$ _____

$\frac{1}{4} < \frac{7}{8}$ _____

$\frac{1}{2} = \frac{2}{4}$ _____
