

English- Castles

Castle Gardens

Today I have shared the story the Gigantic Turnip with you. Thinking about planting and growing and carrying on from yesterday I would like you to find out what types of things grew in castle gardens. You may then like to design your own soup using ingredients from a castle garden, like in the story, or you may like to design a medieval garden of your own. Don't forget to add labels so that I know what you are growing! Were medieval gardens grown in particular ways?

Hope you enjoy the story and I look forward to seeing what you design!
