

Maths Halving

This week we are learning about halving in Maths. Look at the powerpoint 'Pedros Pizza Palour' to recap halving on our home learning page. Once you have done this complete the activity below.

Today you are going to have your own pizza parlour. Design and colour your pizzas on the below pizza bases. Once you have done this, cut them out. Each pizza is going to be shared by 2 customers, can you cut each in half? Remember halving needs to be fair. Once you have cut each pizza in half stick them in your exercise book or on a separate piece of paper.

Please email this piece of learning to your child's class email address. Thank you.
