Today you're going to write the **middle** of your story 'The Knight Who Couldn't Sleep'.

Talk to your grown up about

- some things that might keep your Knight awake
- where he might try to sleep in the castle

On your next page write some sentences about what happens next. Your knight should try a couple of different places to sleep. What is keeping him awake now?

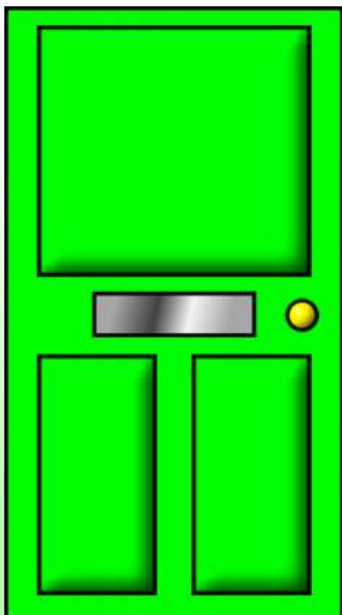

Here are some sentence starters to help you and the ideas web from the video.

There is also an example of what could happen next below.

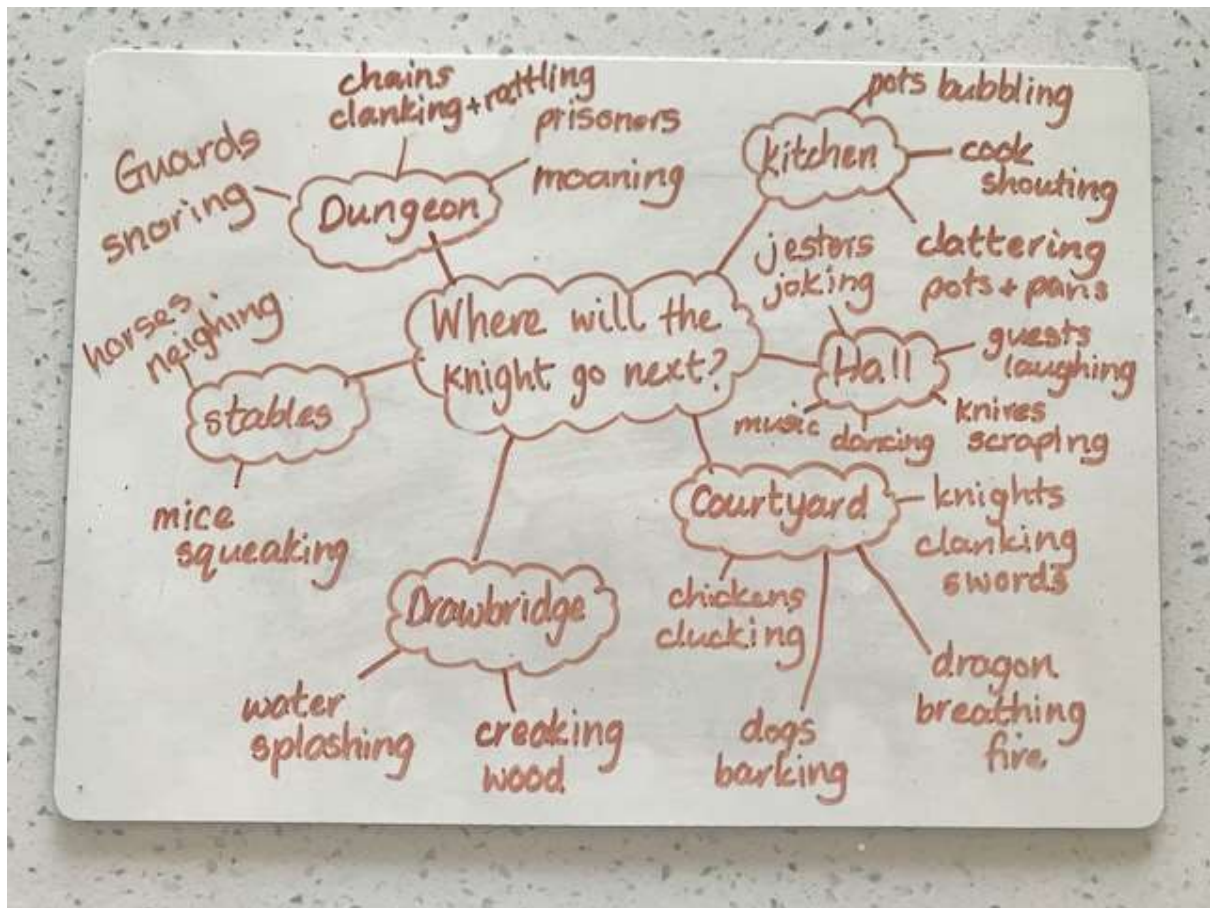

Some of you will be able to write more which is great – please don't feel pressured. Do as much as you can in no more than 40minutes. 🕒

### The Knight who couldn't sleep

Once long, long ago in a castle far away there lived a Knight. He was a very brave knight but he was also a very tired knight. He climbed the winding staircase to his bedroom at the very top of the tower and went to bed.

But he couldn't sleep.

His alarm clock was ticking loudly on the bedside table...tick, tick, tick, it went.

"I can't stand this! I'm going to find somewhere else to sleep" he moaned.

He tried sleeping in the kitchen by the warm fire but Cook kept clanging the pots and pans... clang, clang.

"I can't stand this! I'm going to find somewhere else to sleep" he grumbled.

Next he curled up under a bench in the Banquet Hall but the King was having a banquet. The jesters were dancing and playing tricks, the bells on their costumes ringing... tinkle, tinkle.

"I can't stand this! I'm going to find somewhere else to sleep" he shouted.
