

## Reception Summer 2 Learning

### PLEASE READ

Now we have reopened and many children have joined us back at school the uploading of home learning will be slightly different.

- All home learning will be uploaded by Sunday evening to help you prepare for the week ahead.
- If your child is attending school for their timetabled 2 days the Literacy and Maths activities online will be taught and completed in the classroom.
- If you are continuing to learn from home, you can complete the Literacy and Maths activities at some point during the week. We will still be asking you to email us specified pieces of learning to the class email addresses.
- There will be an 'optional extras' document at the beginning of each week on the home learning page. This will have some additional Literacy and Maths activities you may wish to complete at home- these will not be covered in school, unless your child is attending the Key Worker facility, so are new activities for EVERYONE.
- Our topic for Summer 2 is 'Our Wonderful World', this is broken down into mini topics. At the beginning of each topic, a new topic web will be added to the home learning page. These will have suggested activities to complete at home, covering all areas of learning in our Early Years curriculum.

Many thanks,

Mrs Clements, Mrs Morris & Mrs Gregory
