

Maths Task 2

If you are continuing with learning from home please complete this activity.

Please email a photograph of this activity to your child's class email. Thank you

We will be doing this activity in school this week, so no need to complete before your sessions at school.

We are continuing with our work on sharing. Please first watch the story, 'The Bad-Tempered Ladybird' (<https://www.youtube.com/watch?v=bH6UIYCRmAE>) before sharing your 'aphids' between our three hungry ladybirds. You may wish to cut out the aphids below or, instead, use counters, Unifix cubes, raisins or grapes as your aphids.

 Mild	You will need number cards showing 3, 6, 9 and 12. Mix up the cards and encourage your child to pick one up, count out that number of 'aphids' and share them equally between the three ladybirds.
 Spicy	You will need number cards showing 3, 6, 9, 12, 15, 18 and 21. Mix up the cards and encourage your child to pick one up, count out that number of 'aphids' and share them equally between the three ladybirds.
 Hot	You will need number cards from 1 to 24. Mix up the cards and encourage your child to pick one up, count out that number of 'aphids' and share them equally between the three hungry ladybirds. Can your child spot the numbers that share equally and write them down, noting that some numbers do not share equally by 3?
