

We are completing this activity at school this week. If you are continuing to learn at home, please take a photograph of this piece of learning and send it to your child's class email. Thank you.

## Mini-beast fact writing

We would like you to find out about your favourite mini-beast. At school we are learning about bees, so you might like to find out about them too. You could watch Jess's mini-beast adventure on youtube or use the kiddle search engine to find out more

Once you have found out your information, write about them. You could use the writing frame below. Write the name of your chosen mini-beast on the line at the top for the title of your writing.

Remember to use the following to help write your sentences:

- Think it, say it, write it- to help remember your sentence and the sequence of words.
- Use your sounds, say the words slowly to help identify the order of the sounds. (If your child finds segmenting words a challenge, say the words slowly for them, encourage them to write the initial sound and some sounds they hear)
- Use your phoneme mat and teddy word book
- Finger spaces between each word
- Full stop at the end of your sentence
- Read your writing back using your sounds to check it makes sense and the words say what you had planned.
- Remember not to number your facts/sentences. You can continue to write the next fact on the same line if you have space.

	Write 1 fact about your chosen mini-beast
	Write 2 facts about your chosen mini-beast
	Write at least 3 facts about your chosen mini-beast

---

L.o- To use my sounds and teddy word knowledge to write share the facts I have found out about my chosen mini-beast
