WRITING INFORMATION - rabbits

Yesterday you read lots of information about rabbits.

We would now like you to create a leaflet with information about rabbits.

You should choose at least three topics to write about, but you can choose more. You might choose 'diet', 'habitat' and 'off-spring', for example. These will be your sub-headings.

You could print off some pictures for your leaflet or you can draw pictures, or both! Maybe you could add a diagram of the lifecycle of a rabbit.

You can use the internet to find out new facts about rabbits too.

You can do this writing over two days.
