

Some measuring fun for you today.

You may need to ask someone to help you measure the length of your head, body, legs, arms and feet.

Make your half-size person like a stick man.

### Paper man

- Using newspaper or any other kind of big paper, make a person that is half as tall as you are.

- measuring equipment
- newspaper
- scissors
- sticky tape or glue
- pencil and paper

- How are you going to make sure that the model is half your size?
- How often will you check its height?
- How are you going to keep your model together?
