

Today you are learning how many tens there are in three digit multiples of ten

If ten 10s is equal to 100, work out the answer to the following amounts of 10.

18 lots of 10 =

12 lots of 10 =

15 lots of 10 =

17 lots of 10 =

20 lots of 10 =

21 lots of 10 =

30 lots of 10 =

32 lots of 10 =

40 lots of ten =

You could use counters which are worth 10 each and arrange them in groups of 10 to make 100.

Or

You could draw the correct amount of tens like this:

Ten lots of 10 makes 100 + eight lots of 10
