

Here are some fun logic problems for you to try.

You may need to try more than one way. So keep going until you succeed

Put the numbers 1, 2, 3, 4, 5, 6 in the circles so that each side of the triangle is equal to the number in the middle.

Buzzy Bee was building a honeycomb.

She decided to decorate the honeycomb with a pattern using numbers.

Can you discover Buzzy's pattern and fill in the empty cells for her?
