

### Signs of Spring Writing

Choose a sign of Spring you spotted in your garden. Draw a picture in your yellow exercise book and write a sentence to go with your picture. Remember to use your teddy book and sound mat to help you. Practise saying your sentence out loud first, counting how many words there are. If you can't remember what word comes next, re-read what you have written so far. Don't forget a finger space between each word.

Please remember phonetic attempts at words are absolutely fine.
