

We are learning about the ways in which we are unique (different to anyone else)

Choose one set of characters.

Write all the ways that the characters look similar (same)

Write all the ways that the characters look different

Are there any **other** ways that the characters could be similar or different?

Look at the video of Giraffes can't dance or read the book if you have it.

<https://www.youtube.com/watch?v=Zzb5Acl-n70>

Now answer these questions:

- In what ways is the giraffe different to all the other animals?
- How did the reaction of the other animals make the giraffe feel?
- Does it matter that the giraffe dances in a different way?
