Maths

L.O to represent 8 in different ways.

- 🌻 This week we have been exploring lots of different ways to represent 8.
- 🌻 We have shown 8 on 10 frames in lots of different ways – Did you find them all?
- 🌻 We counted up to 8 legs on creatures.
- 🌻 We used objects from around the house to represent 8.
- 🌻 Are 8 claps still 8, even if there is nothing to see or touch?
- 🌻 Can you think of any different ways to show 8?

Your activity today is to make a poster of 8.

You might want to draw pictures, make 10 frames, even ask someone to film you doing 8 jumps alongside your poster! Be as creative as you like representing 8 in as many different ways as possible.

Here is an example of one I made at home. I used objects and ten frames. I found all the ways to show 8 on a ten frame. Do you agree? Why?

Can you count to 8 and back again?
