Reception

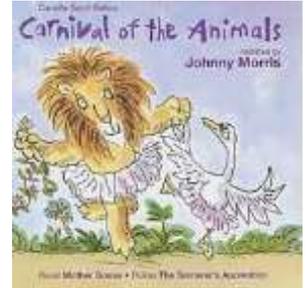

Additional Home Learning Activity Ideas WB 18.01.21

This week our topic is 'Freshwater Animals'

Use empty boxes, tubes, junk from home to make an animal that lives near freshwater.

Listen to the Carnival of the animals, The Swan. Can you move like the animals in response to the music.

The Swan

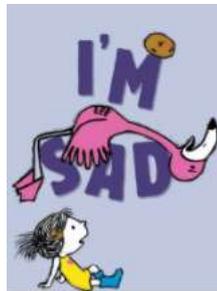

<https://www.youtube.com/watch?v=viAbg22VFfY>

The Flamingo

<https://www.youtube.com/watch?v=wAVEdfi4En8>

Have a look in your story book collection at home. Do you have any about Lakeland creatures? Spend some time looking at the pictures and making up your own story based on what you see happening before reading them with a grown up or sibling.

As part of your daily walk, visit a pond area and count how many freshwater animals including birds can you see. You might like to take some photographs using your technology skills.

Beavers are very good at building dams. A dam is a barrier in water. Investigate how beavers build dams. Can you build a beaver dam in your bath or a tray or basin or even in the sink?

Don't forget to upload any of the activities you complete from here onto Tapestry. We love seeing your learning at home!
