

Swimming Time Table for 2019

Year's 1 and 2 children swim in groups of 13 (half the class). These groups are organised so that the teacher can maximise the learning in the classroom. Reception children swim in groups of 8 or 9. Lessons are a mixture of skills teaching and water confidence games. There is always a qualified member of staff on duty to help the children and parents. We require two parents in each room and two parents as extra eyes poolside. The swimming rota for you to sign to help will be available early next term. If you intend helping with supervising the changing of children please inform the office so that we can organise DBS checks. The parent's role is to supervise children so that they dress themselves independently.
